

## **New App Re-defines How You Should Take Notes on iPad**

*7knowledge releases a new Note Taking iPad app called 7notes HD*

San Francisco, CA ([PRWEB](#)) August 24, 2011 -- 7knowledge Corporation, an innovative productivity application developer, has released 7notes HD (<http://itunes.apple.com/app/id455625507>), the note taking application for iPad, which is now available in the Apple App store. 7notes HD allows the user to mix their handwriting and digital texts so they can take notes in business meetings faster and easier. A premium version of 7notes HD has a converter that allows the user to convert their writing into digital anytime.

7notes HD's seven benefits

1. Note take now and annotate them later
2. Convert handwriting to digital text later. (Premium only)
3. Decrease note taking time - State-of-the-art predictive engine decreases note taking time
4. Add fun to writing - express feelings with various input support features
5. Handle text and images in a smart manner - Post to Facebook, Twitter and store at Evernote, Dropbox
6. Social Doodling with "Edit it" Server
7. Create a curation note with image & web page

7notes HD uses a proprietary state-of-the-art handwriting recognition software developed by a worldwide expert team. 7notes HD allows users to take notes on the go with their fingers or a pen for the iPad. The system automatically recognizes handwriting and records it. Users can save them into different memo documents as well as connect to DropBox and Evernote.

Handwritten notes and symbols can be entered directly onto digitally typed text documents. 7notes HD allows the user to set styles of their writing including weight of stroke, size, color, etc. Users can switch between Handwriting and Keyboard entry with a single touch. 7notes HD allows sketching of ideas, organization of thoughts and sharing easily by just plugging in a VGA adapter into the iPad and display them in real-time on any projector or display.

Standard features include simple note taking features, built-in Spell Checker, autocorrect and auto-completion and PDF document creation.

“This iPad App allows humans to move a step closer in merging the paper world to the digital world” says Kaz Ukigawa, President / CEO of 7knowledge. “The iPad has changed the way we interact with our world and we, as an industry, must provide transitional solutions to make it easy, efficient and natural for people to embrace the technology.”

This app is downloadable in the iPad App Store or the iPhone App Store.
