

Update to Popular Note Taking App Now Available – 7notes 1.4

New version makes it easier to create, share and save memos on iPhone.

San Francisco, CA ([PRWEB](#)) September 29, 2011 -- 7knowledge Corporation, an innovative productivity application developer for tablet and smartphone devices, has released 7notes 1.4, an update version of the popular application for iPhone that includes new features and functionality to make it easier for consumers to create, share and store notes and memos.

“7notes continues to receive rave reviews from users. They enjoy using an app that makes it easy to take notes in real time, without the hassle of worrying about spelling or punctuation,” said Kaz Ukigawa, the CEO of 7knowledge. “Their response is what encouraged us to make this update in order to deliver an application that continues to meet their wants and needs and make their note taking experience event better, and improved creative options, share and save capabilities were among their needs.”

Among the new features in 7notes 1.4: new background colors and other creative elements such as various seasonal template and rich memos, and SMS and clipboard abilities. While iPhone's small tiny keyboard limits the potential of the power of device, 7notes will unlock the limitation for user to be more productive with the addition of an extended keyboard that will provide a wide input area that makes the tiny iPhone keyboard obsolete.

“A common complaint among iPhone users is its tiny keyboard. 7notes will offer a more enjoyable note taking experience with an extended software keyboard, providing a more comfortable text input mode, while its stroke and convert abilities will easily convert handwriting to digital font. Now with 7notes the headaches of taking notes on the iPhone will be eliminated.”

New design elements will help bring notes to life, while the addition of more vibrant background colors or picture images will enable users to think of their smartphone as a device that will support their creative work, like writing and drawing, as well as gaming, listening to music and watching videos.

New clipboard features will allow users to save work, while SMS capabilities will take sharing ability beyond DropBox and Evernote, making it easy to text notes to friends, family or colleagues. “7notes already allowed users to sketch ideas, organize thoughts and share, but now there is even more creative and greater ability to share and save at social network services,” Kaz added.

With 7notes proprietary state-of-the-art handwriting recognition software, users can take notes on the go with their fingers or a pen for the iPad and event switch between handwriting and keyboard entry with a single touch. Memos can even be saved into different formats through DropBox and Evernote. Standard features include simple note taking features, built-in Spell Checker, autocorrect and auto-completion and PDF Document Creation.

7Knowledge continue to offer solutions that eliminate barriers between smartphone users and their keyboards, with future plans to expand its 7notes for iPhone and iPad app, as well as 7notes for Android.

7notes is available for download in the iPhone and iPad app store at: <http://itunes.apple.com/app/id449800424>.

7notes' Seven Benefits:
