

TabTimes Announces Note Anytime As Tabby Award Winner 2013 for Best Personal Productivity App

MetaMoji was informed today that its bestselling notetaking app, Note Anytime, was just selected Tabby Award Winner by TabTimes for Best Personal Productivity App of 2013.

Palo Alto, CA ([PRWEB](#)) August 27, 2013 -- TabTimes has recognized [Note Anytime](#) for product excellence by awarding the Tabby Award for "[Best Personal Productivity App for 2013](#)". Tabby Awards is the only competition for the best tablet apps worldwide. Publishers from more than a dozen countries submitted apps to the competition last spring.

A panel of 17 tablet professionals, set up in association with the Application Developers Alliance, reviewed 150 apps for iPad, Android or Windows 8 tablets and selected Note Anytime as an outstanding app in Personal Productivity. Judges considered the following criteria: overall value for the user, speed, concept, navigation, design, innovation, ease of use, use of tablet device functions and performance.

Note Anytime was recognized due to its versatility as not only a powerful note taking app, but also as a PDF annotator, virtual whiteboard and vector graphic sketching tool. For mobile users who own multiple devices, Note Anytime is a must-have app for capturing inspiration on the fly. Every creation in Note Anytime is automatically saved into the cloud and can be easily synchronized between devices for later enhancement. Note Anytime is already the #1 overall app in Japan and in the top ten in over a dozen other countries.

“The Tabby Awards shed light on apps that are exclusive to or optimized for tablets,” said Patrick Pierra, CEO of TabTimes and founder of the Tabby Awards. “The variety and the quality of winners show the depth and richness of the tablet app market and they are testament to its vitality.” Note Anytime and other 2013 Tabby Award Winners, will be appointed a trophy at the first Tablet Ecosystem conference in New York City on November 13, 2013.

Smartphone and tablet users can use Note Anytime for every aspect of their lives:

- Business users can use Note Anytime to sign, initialize or comment on a PDF document and then send out as another PDF.
- Families will love marking up photos and drawings, creating greeting cards and tweeting out to their friends or posting to Facebook.
- Business teams and non-profits will love using Note Anytime as a virtual whiteboard and mindmapping tool. With limitless white space and zoom capabilities of up to 50X scaling, teams can mindmap or mashup any of their ideas with sketches, graphics, photos or files and keep a perfect digital record of the inspiration for all team members later.
- Mom and kids can do digital scrapbooking (cards and personal notes for special occasions...) of just about anything- from photos on their device, to graphics in the item library to their own creative drawings.
- When users register for Digital Cabinet, they never have to worry about losing data, sketches and drawings or any other critical documents. Automatic save and synchronization means they can pick up where they left off, no matter what device they are on. Universal support means they can sketch a drawing on an Android, pick it up on an iPad and then send it to a Windows 8 desktop without ever losing work.
- Product enhancements include support for an advanced handwriting recognition add-on called mazelc2 (\$7.99 for each language version from Google Play) which provides handwriting to text conversion as well as a predictive engine to suggest spelling and sentence structures. Note taking input is lightning fast with this new

feature.

Note Anytime was created to replace pen and paper with a vastly superior means to capture inspiration. Devices are with you anywhere you go and with Note Anytime, inspiration can be captured on the fly – regardless of device. Free download is available now.
