

Cross-Platform Note Taking App Note Anytime Announces Open Beta for Android

MetaMoJi completes its vision for a universal sketching tool with the announcement of an open beta for the most advanced note taking app - Note Anytime for Android

Palo Alto, CA ([PRWEB](#)) March 26, 2013 -- MetaMoJi Corporation announces today an open beta program will begin for the Android version of its revolutionary note taking and sketching application Note Anytime. With this release, MetaMoJi completes its vision for a universal mobile note taking application which acts as a “smart pen and paper” to follow users across all of their mobile devices, including iPad, iPhone, Windows8/RT, and now Android phones and tablets. This open beta program is meant to encourage early adopters and Android fans to explore the vast amount of features within Note Anytime on all types of Android smartphones and tablet devices with Android 4.0 and higher.

For mobile users who own multiple mobile devices, Note Anytime is a perfect complement for jotting notes, marking up photos to share on Facebook or Twitter, or sketching any drawings around high resolution graphics. Advanced features like PDF annotation and interactive web browsing set it apart from any other note taking app on the market, especially those offered for free.

With support for all versions of iOS, Windows 8/RT and now Android, notes and drawings can be easily synchronized between all mobile devices. The unique vector based authoring capability of Note Anytime puts the product in another class from any other note taking or sketching application. Perfect visual integrity is maintained no matter how small or large the high resolution photo is expanded or collapsed. Even handwritten or typed text boxes are treated as a work of art, allowing users to can change colors or line depth and add advanced calligraphy features for perfect curve correction. Main features include:

- * **GENEROUS VARIETY OF PAPER AND PENS** – The free version of Note Anytime does not skimp on features and elements, you are given a generous variety of pen styles and colors which can be customized to your preference for thickness, color and transparency. Calligraphy Pens – The free version of Note Anytime even offers perfect curve correction and highly stylized lettering with calligraphy pens.
- * **DIGITAL SCRAPBOOKING** – you can combine any number of elements and redesign in your composition: handwritten text, keypad input, and photos from the device camera, imported jpeg graphics, a PDF file or even a web page.
- * **PDF ANNOTATION** – Even the free version of Note Anytime allows you to import a PDF file, markup and enhance and then output as a new PDF with a few simple clicks.
- * **SCALING FUNCTIONS** – With zoom levels of up to 50X scaling and the size of over 25 feet in diameter, you can shrink your creations down to the size of a sticky note or up to the size of a billboard while still maintaining 100% visual integrity.
- * **'JUMP TO" FEATURE** – You never have to worry about navigating around your document with the easy Jump feature. Any part of your drawing or document can be tagged for easy navigation and retrieval later.
- * **INTERACTIVE WEB BROWSING** – Note Anytime acts as an interactive browser which allows you to go

out to a website, import the site as a graphic and then markup, scale, rotate, annotate, and export the result as a high resolution jpeg graphic or PDF file.

* HIGH RESOLUTION GRAPHICS – The vector based authoring tools in Note Anytime not only allow you to collapse or expand any graphic without losing visual integrity – but it also allows drawings to be saved as individual jpeg graphics into the item library for infinite reuse later.

* SOCIAL MEDIA SHARING CAPABILITY – Unlike other note taking applications, Note Anytime allows you to easily output your new creations via email, social media sharing services (Facebook, Twitter, Tumblr), or saved to Dropbox and Digital Cabinet.

* CLOUD BASED STORAGE FREE – Note Anytime even offers convenient batch upload to its own cloud based storage service called Digital Cabinet with 2GB for free and additional space available. (not included in beta)

* AUTOMATIC SYNC ACROSS PLATFORMS – When you register for Digital Cabinet (not included in beta), you will never have to worry about losing your data, sketches and drawings or any other critical documents. Automatic save and synchronization means you can pick up where you left, no matter what device you are on. You can sketch a drawing on your Android, pick it up on your iPad and then send it to your Windows 8 desktop without ever losing your work.
